For most realistic league play, when possible, allow only above pitchers preceded by an asterisk to start once every four games (3-game rest between starts). All other starting pitchers should start once every 5 games (4-game rest between starts).

E-RAT - denotes super advanced error rating if applicable.

9. pitcher

For most realistic results, George Archie should start at 3B for Washington even though he is found on St. Louis (AL). Buddy Lewis should then play rightfield instead of Roberto Ortiz.

The following players have different fielding ratings in the basic and advanced games - F. Croucher (Det), S. Sisti (Bos-NL) and E. Slaughter (St. Louis-NL).

There is one player who does not have a team name on his card. You must write in the team name. Below is the player mentioned, teams played for and number of games played with each team.
George Archie Washington - 105 St. Louis (AL) - 9
