For most realistic league play, when possible, allow only above pitchers preceded by an asterisk to start once every four games (3-game rest between starts). All other starting pitchers should start once every 5 games (4-game rest between starts). Also, we suggest that all 67 additional players (players with "a" before their name) be used in secondary roles.
 E-RAT - denotes super advanced error rating if applicable.
 + means an additional super advanced error rating is found at the end of the roster sheet.
