*For most realistic League play, when possible, allow only above pitchers preceded by an asterisk to start once every four games (3 games rest between starts). All other starting pitchers should start once every 5 games (4 game rest between starts). Also, we suggest that all 96 additional players be used in secondary roles.

In addition to the top 480 players, we are releasing for our most avid baseball fans, 96 additional players or 4 players per team from the 1971 season. By adding these players to the rosters of the top 480 players, you can have 24 players per team. It must be noted that several of the additional player cards are based on insufficient 1971 statistical data. The 96 additional players may be purchased as a separate unit only for the special price of \$2.25. Individual players will not be sold from this unit. A listing of all 96 additional players (48 additional players – American League and 48 additional players – National League) may be found on this roster sheet.
