For most realistic League play, when possible, allow only above pitchers preceded by an asterisk to start once every four games (3 game rest between starts). All other starting pitchers should start once every 5 games (4 game rest between starts). Wilbur Wood may be started once every 3 games (2 game rest between starts). Also, we suggest that all 96 additional players be used in secondary roles.

In addition to the top 480 players, we are releasing for our most avid baseball fans, 96 additional players or 4 players per team from the 1973 season. By adding these players to the rosters of the top 480 players, you can have 24 players per team. It must be noted that several of the additional player cards are based on insufficient 1973 statistical data. The 96 additional players may be purchased as a separate unit only for the special price of \$2.60. Individual players will not be sold from this unit. A listing of all 96 additional players (48 additional players — American League and 48 additional players — National League) may be found on this roster sheet. With each purchase of 96 additional players, four extra players will automatically be included free of charge (our Strat-O-Matic flyer does not mention this free bonus). As these players do not have team names indicated on their cards, you must write the team name in. Below is a list of the four involved players, teams played for (last team mentioned is team of record at season's end) and number of games played.

Felipe Alou — 93 N.Y. Yanks	Montreal — 19	
Matty Alou — 123 N.Y. Yanks	St. Louis — 11	
Pat Bourque — 57 Chicago Cubs	Oakland — 23	
Jim McGlothlin — 24 Cincinnati	Chicago White Sox — 5	

You may eliminate a player of your choice from each team that receives one of the above players. Please do not write Strat-O-Matic regarding the above, as only your judgment is involved in this matter.
