If your game's instructions refer to the scoreboard's location as the back cover, please disregard this and refer to the strategy chart instead.

Any American League batter may be placed in the lineup as a designated hitter. Players lacking fielding positions may also be used in a pinch-hitting capacity.

In American League play only, an injury occurs to the pitcher in the field when a white 6 and a red dice total of 12 is rolled, only when the DH is at bat. This rule applies only to the American League.

Advanced Game Stealing — Catcher's Throwing Arm Included — a catcher's throwing arm will affect all steal attempts. Simply add or subtract the number in parenthesis following the catcher's fielding rating from the steal rating of the involved baserunner. If the defensive manager elects to hold the runner on base the following deduction is made, based on the stealing rating of the involved baserunner:

AAA	AA	A	B	C	D	E
-1	-3	-3	-4	-4	-5	-5

For example, if a B baserunner attempts to steal second base against a catcher with a throwing arm of -1 while being held, his safe possibilities are 1-8 instead of 1-13. Please apply the groundball ++ rule as stated in the advanced game stealing section when runners are being held.

For most realistic League play, when possible, allow only above pitchers preceded by an asterisk to start once every four games (3 game rest between starts). All other starting pitchers should start once every 5 games (4 game rest between starts). Also, we suggest that all 96 additional players be used in secondary roles. Also the following top 20 players: Phil Roof of Minnesota, Bill Fahey of Texas, Glenn Adams of San Francisco, and Jose Morales of Montreal should be used in secondary roles only.

In addition to the top 480 players, we are releasing for our most avid baseball fans, 96 additional players or 4 players per team from the 1975 season. By adding these players to the rosters of the top 480 players, you can have 24 players per team. It must be noted that several of the additional player cards are based on insufficient 1975 statistical data. The 96 additional players may be purchased as a separate unit only for the special price of \$2.70. Individual players will not be sold from this unit. A listing of all 96 additional players (48 additional players—American League and 48 additional players—National League) may be found on this roster sheet. With each purchase of 96 additional players, one extra player will automatically be included free of charge (our Strat-O-Matic flyer does not mention this free bonus). As this player does not have a team name indicated on his card, you must write the team name in. Below is the extra player mentioned, teams played for (last team mentioned is team of record at season's end) and number of games played.
