For most realistic league play, when possible, allow only pitchers preceded by an asterisk to start once every four games (3 game rest between starts). All other starting pitchers should start once every 5 games (game rest between starts). We also suggest that all players be restricted to their actual number of at bats or Innings pitched. There are a number of players whose fielding ratings differ in the basic and advanced games.

There are thirty three players with total cards based on combined statistics from both leagues. Some players will have three cards in the set; an American League card, a National League card and a total card, which other players will have two cards or one card. These cards are found in the additional players and will have IL following their name. Listed below are the players and the games played with each team. Statistics will vary according to performance for each team. Last team mentioned is team of record at season's end.

Paul Abbott TB - 10 Phil - 10	Scott Elarton Colo - 8 Cle - 21	Chad Harville Oak - 3 Hou - 56	Abraham Nunez Fla - 58 KC - 59

There are three players who do not have a team name on their cards. You must write in the team name. Below are the players mentioned, teams played for and the number of games played with each team
Brian Buchanan SD - 38 NYN - 2; Jeff Fassero Colo - 40 Ariz - 1; Ben Grieve Mil - 108 ChiN - 15

Please restrict Alex Rodriguez of New York AL to 2 games at shortstop. He only played 2 innings there all year. There is one player whose name we are not permitted to use.

The Ballpark and Weather effects ratings for Montreal included on the enclosed card are combined effects ratings for the complete season. The table below contains the split ballpark and weather effects for Olympic Stadium and Hiram Boham Park.
