For most realistic league play, when possible, allow only above pitchers preceded by an asterisk to start once every four games (3 game rest between starts). All other starting pitchers should start once every 5 games (4 game rest between starts). We also suggest that all players be restricted to their actual number of at bats or innings pitched. Overusing players such as Keith Miller of NY(NL) will distort the team statistics. Players such as Miller should be used in secondary roles only. The following eleven players do not have a team name on their cards. You must write in the team name. Below are the players mentioned, teams played for and number of games played. With the exception of Randy O'Neal and Phil Niekro, you will find these players on the first team mentioned. Niekro will be found on Toronto. A + denotes players who played during the last third of the season with the indicated team.

SUPER ADVANCED VERSION

In order to play the Super Advanced Version ALL symbols to the left of the numbers must be used, if you prefer to play the Advanced Version only, read the cards in the usual manner ignoring all symbols to the left of the numbers and all second readings.

Ω CLUTCH HITTING — Occurs only in two-out situations in which one or more runners are in scoring position (occupying second or third base). When such a situation exists, and a reading is rolled that has a horseshoe symbol to the left of it, the results of the reading are reversed in the following manner: if the reading results in any type of an out, automatically reverse it to a SINGLE**; if the reading results in a single, automatically reverse it to a popout.

▼ BALL PARK EFFECT - SINGLES — Ignore all readings that have a ▼ to the left of it. Instead, read the results found underneath the ▼ symbol of the ball park effects card. To obtain results, refer to the appropriate home stadium and the batting stance (L=lefty or R=righty) of the hitter. Most likely, you will select a split card to determine the final outcome. (over)

SUPER ADVANCED VERSION

◆ BALL PARK EFFECT - HOMERUNS — Ignore all readings that have a ◆ to the left of it. Instead, read the results found underneath the ◆ symbol of the ball park effects card. To obtain results, refer to the appropriate home stadium and the batting stance (L=lefty or R=righty) of the hitter. As in the advanced version, players with weak power (W) may not hit homeruns. In this situation, change all homerun results to single**.

△--Refer to the second reading (in italics) under the number. Ignore the initial reading. (over)
