For most realistic league play, when possible, allow only pitchers preceded by an asterisk to start once every four games (3 game rest between starts). All other starting pitchers should start once every 5 games (4 game rest between starts). We also suggest that all players be restricted to their actual number of at bats or innings pitched. The following ten players do not have a team name on their cards. You must write in the team name. Below are the players mentioned, teams played for and number of games played. A dot (•) after one of the team names denotes where the player is listed on the roster sheet. If there is no dot, player can be found in the mixed player group. Please note Jody Davis is listed with Chicago (N.L.) even though he finished the season with Atlanta. Dave LaPoint's card is based on his statistics with Chicago (A.L.) even though he is listed with Pittsburgh. Mario Soto, Kevin Coffman and Chris Bando played with two clubs but accumulated statistics for only one team. Players designated as "additional players" have a small "a" listed to the left of their name.

Chris Bando	- Cleveland	-33	- Detroit •	-0	Dave LaPoint	- Chicago (A.L.)	-25	- Pittsburgh •	-8
Kevin Coffman	- Chicago (N.L.) •	-0	- Atlanta	-18	Jim Morrison	- Detroit	-24	- Atlanta	-51
Mike Diaz	- Pittsburgh	-47	- Chicago (A.L.) •	-40	Ken Oberkfell	- Atlanta	-120	- Pittsburgh •	-20

There are seven players with cards in both leagues. Listed below are the players and the games played with each team. Statistics will vary according to performance for each team. Last team mentioned is team of record at season's end.

Darnell Coles	- Pittsburgh	-68	- Seattle	-55
Shawn Hillegas	- Los Angeles	-11	- Chicago (A.L.)	-6
Jeffrey Leonard	- San Francisco	-44	- Milwaukee	-94
Gary Redus	- Chicago (A.L.)	-77	- Pittsburgh	-30
Ernest Riles	- Milwaukee	-41	- San Francisco	-79
Jim Sundberg	- Chicago (N.L.)	-24	- Texas	-38
Glenn Wilson	- Seattle	-78	- Pittsburgh	-37

On the basic cards, if a pitcher has BOTH starter and relief listed on his card, check his advanced side to see if either one is underlined. If so, consider that to be his primary pitching role on the team. If not, you should use that pitcher equally between starting and relieving.

### SUPER ADVANCED VERSION

In order to play the Super Advanced Version ALL symbols to the left of the numbers must be used. If you prefer to play the Advanced Version only, read the cards in the usual manner ignoring all symbols to the left of the numbers and all second readings.

Ω **CLUTCH HITTING** — Occurs only in two-out situations in which one or more runners are in scoring position (occupying second or third base). When such a situation exists, and a reading is rolled that has a horseshoe symbol to the left of it, the results of the reading are reversed in the following manner: if the reading results in any type of an out, automatically reverse it to a SINGLE\*\*; if the reading results in a single, automatically reverse it to a popout.

▼ **BALL PARK EFFECT - SINGLES** — Ignore all readings that have a ▼ to the left of it. Instead, read the results found underneath the ▼ symbol of the ball park effects card. To obtain results, refer to the appropriate home stadium and the batting stance (L=lefty or R=righty) of the hitter. Most likely, you will select a split card to determine the final outcome. (over)

### SUPER ADVANCED VERSION

◆ **BALL PARK EFFECT - HOMERUNS** — Ignore all readings that have a ◆ to the left of it. Instead, read the results found underneath the ◆ symbol of the ball park effects card. To obtain results, refer to the appropriate home stadium and the batting stance (L=lefty or R=righty) of the hitter. As in the advanced version, players with weak power (W) may not hit homeruns. In this situation, change all homerun results to single\*\*.

△--Refer to the second reading (in italics) under the number. Ignore the initial reading. (over)
